

## Drug Shortages Advisory Group

### The Drug Shortages Advisory Group:

- Works with ASCO staff to develop guidance on the prioritization of antineoplastic agents in limited supply for first intervention.
- Advises ASCO on topics related to drug shortages that should be addressed with clinical guidance

### The Advisory Group Members are asked to:

- Provide rapid feedback by email to questions and topics from ASCO staff where their expertise is relevant.
- Recommended additional members for the Advisory Group or other experts that could assist ASCO response to drug shortages
- Update their disclosure information on ASCO's disclosure platform to ensure transparency
